REACH Declaration

DILAS Diodenlaser GmbH is a manufacturer of electronic products, thus – in the sense of REACH – they are so – called “downstream user”. The products we supply to you are solely non-chemical products (goods). Moreover and under normal and reasonably foreseeable circumstances of application, the goods supplied to you shall not release any substance. For that, DILAS Diodenlaser GmbH is neither obligatory for registration not responsible for the creation of material safety data sheet (MSDS).

Independent of that fact, we are intensively pursuing the realisation of REACH on the part of our suppliers, we do that in our own interest and in order to guarantee a high level of product safety for our customers. We are in close contact with our suppliers of chemistry and prepared material (E.g. manufacturing supplies for manufacturing, processing and workmanship of our products or for the utilization within other operative processes) and will implement the pre-registration and / or later registration of the relevant materials in REACH respectively in our process of supplier qualification.

i.V. Meinhard Günther
