For Immediate Release
No. 16103

DILAS to Sell Directly in France

MAINZ, Germany, May 12, 2016 – DILAS, the diode laser company, today announces effective May 1, 2016, it will serve the French market for high-power diode laser components directly from its headquarters in Mainz, Germany.

With rapid growth, the guidance to sell directly is based on the increased demand for high-power diode laser components in France and the need for direct technical support within the French market.

DILAS' Director of Sales, Dr. Jörg Neukum, stated: "This new strategy allows customers a direct channel to DILAS' products and its technical teams, as well as it allows us to be closer to market needs and trends."

To support the change, Dr. Florian Lenhardt of DILAS Diodenlaser GmbH will be responsible for driving DILAS' components sales strategies in France. Contact information; f.Lenhardt@dilas.de.

About DILAS

DILAS, the diode laser company, is focused on delivering the most innovative technologies and advanced product solutions in the industry. Founded in 1994 in Mainz, Germany, with operations in North America and Asia, DILAS designs, develops and manufactures quality high-power, high-brightness semiconductor laser components, modules and systems, including fiber-coupled products for worldwide distribution. For more information about DILAS, including product updates, visit the company's website at www.DILAS.com.
